**Re: Marine Terminal 1 South Site
Work Plan Addendum No. 2
Groundwater Monitoring
ECSI No. 2642**

Dear Mr. Struck:

The Port of Portland (Port) has prepared Work Plan Addendum No. 2 for Groundwater Monitoring at the Marine Terminal 1 (T1) South Site. The Work Plan Addendum No. 2 responds to Oregon Department of Environmental Quality (DEQ) General Comment B and Specific Comments 5, 6, and 7 on the T1 South Remedial Investigation (RI) Report, included in your letter dated July 26, 2001. The Port will provide a formal comment response to all DEQ comments on the T1 South RI Report and will address these comments in risk assessment or separate deliverables. The attached T1 South Work Plan Addendum No. 2 for Groundwater Monitoring proposes a monitoring well network, to provide groundwater data for risk assessment purposes, and is submitted to DEQ for prompt review.

Please contact me at (503) 944-7533 with any questions.

Sincerely,

Joe Mollusky
Environmental Project Manager
Property and Development Services
